

Kuaishou Information Security Organization Management Regulations

In order to standardize the information security management of Kuaishou, define the overall information security policy and objectives, strengthen the coordination and management of its internal information security works, promote the construction of its information security system in an orderly manner, integrate the resources of all parties to solve any frequent and difficult problems in its information security works and jointly prevent any major hazards and adverse effects caused by information security incidents, the Company has established the Information Security Committee (the “Security Committee”). As the decision-making and discussion and coordination organization of the Company’s information security works, the Security Committee shall be responsible for the overall information security management of the Company and the overall planning and coordination of major issues and key tasks related to information security of Kuaishou.

These regulations aim to clarify the organizational structure, responsibilities and powers, rules of procedure, working mechanisms and procedures of the Security Committee, and ensure the standardized operation of related works.

These regulations are applicable to any works related to information security construction and personnel management of Kuaishou and its related companies and regional branches (branches, offices and representative offices).

Organizational structure of the information security is as follows:

- (1) The Information Security Committee is the highest decision-making body for the information security affairs of the Company. The Security Committee shall be composed of senior management members of the Company and major persons in charge of each business line, and shall be divided into decision-making members, related departments and the office of the Security Committee according to their respective responsibilities.
- (2) The heads of the first-level departments shall serve as members of the related departments, who are responsible for promoting the implementation of information security management requirements within the department.
- (3) The office of the Security Committee shall cooperate with the decision-making members of the Security Committee to promote the daily information security management works, and report to the decision-making members.
